Subject:	RE: Meeting summary - April Technical Call - Transboundary Monitoring
Attachments:	Summary of Technical Sub-Group Discussions -Transboundary Monitoring Task Group.docx
Flag:	Comments on Meetings Summary due today

Hi again everyone,

It has been suggested that the broader task group would benefit more from a separate summary of our sub-group's discussion rather than sharing the full meeting notes.
Please find attached a summary that I intend to share with the task group, along with the updated matrix document and US-ACE's 2019 sampling plan, when I send out the doodle polls.

Please let me know by Wednesday April 10 if you have any changes, comments or concerns with the attached. I hope I've captured everything accurately.

Thanks and have a great weekend,

Mich

Subject: Meeting summary - April Technical Call - Transboundary Monitoring

Hi everyone,

Please find attached a brief summary of today's discussion, along with the legacy notes from previous meetings. Includes a table noting the remaining items to be addressed.

Let me know if you have any suggested changes to the notes.

Would you all be comfortable if I share this document with the broader task group for their information/awareness?

Doodle polls to follow,
Mich
